## Notice of Supplemental Distribution of a Registered Pesticide Product

## Instructions

After a registrant has obtained final registration for the basic product, the registrant may then supplementally distribute his/her product. One form must be submitted for each distributor product and must be signed by the distributor involved. The basic registration number and the distributor company number must be shown.

If a registrant has a potential distributor who does not have a company number assigned, she/he should have the distributor apply, on letterhead stationery, to the Registration Division to have a number assigned prior to submitting this form to the agency.

This Notice of Supplemental Distribution must be submitted by the basic registrant. The completed form must have the concurrence and signature of both the registrant and the distributor.

Read All Conditions Before Signing  1. The distributor product must have the same composition as the basic product. 2. The distributor product must be manufactured and packaged by the same person who manufactures and package the registered basic product. 3. The labeling for the distributor product must bear the same claims as the basic product, provided, however, that specific claims may be deleted if by doing so, no other changes to the label are necessary. 4. The product must remain in the manufacturer's unbroken container. 5. The label must bear the EPA registration number of the basic product, followed by a hyphen and the distributor's company number. 6. Distributor product labels must bear the name and address of the distributor qualified by such terms as "packed for", "distributed by"; or "sold by" to show that the name is not that of the manufacturer. 6. All conditions of the basic registration apply equally to distributor products. It is the responsibility of the basic registrant to see that all distributor labeling is kept in compliance with requirements placed on the basic product.
